

## Engineering - Aerospace

Eve Lizel Javier

Submitted by Nick Arnold

Eve Lizel Javier is an excellent student with a passion for learning. Eve has participated in many extracurricular activities to expand her knowledge of the engineering profession, including a 12-week online internship at Nasa L'space Academy, working on a project that would analyze hydrocarbons on Saturn's Titan moon – her role was instrumentation engineer and safety officer. Eve also participated in the UCSB hackathon “Womxn Hacks” and won “Best Education Hack 2020”. Eve also attended the very prestigious Grace Hopper Celebration of Women in Computing conference -- the world's largest gathering of women in computing. Eve is the President of the SBCC WISE (Women In Science and Engineering) Club. Eve has demonstrated excellent leadership, teamwork, and innovation as the Club President.

### Eve's Words of Gratitude

I am thankful for this award and would like to extend my gratitude to Dr. Nick Arnold, he was always there to guide and help me towards my path as an engineer. Receiving this award made me feel that I am one step closer in achieving my goals and inspired me to always strive to be the best version of myself. I am also thankful for Santa Barbara City College for providing me with many resources and great professors that encourage me daily and help build a strong foundation that will prepare me in going to a university and eventually in my career as an engineer.
